

Elgin Chau

Global Head of ESG Ratings

Act Analytics

Elgin is an experienced sales leader with a diverse background within the financial services sector.

He began his career as a quantitative analyst on Guardian Capital's global equity team in May 2013, where he gained increasing responsibility for the research and design of their growth and dividend mandates. He then transitioned his knowledge of systematic, rules-based investing to Connor, Clark & Lunn Investment Management where he was responsible for servicing North American and European clients in quant-based strategies.

Elgin believes sustainable business lead to better financial outcomes. He brings this vision and expertise to Act Analytics, where he helps asset managers integrate ESG into their investment processes.
